Re: Submission of Spill Prevention Control & Countermeasure (SPCC) Plan
Buffalo Stamping Plant

September 19, 1986 - May 27, 1986 - June 1, 1986 Spill Incidents

Dear Sir:

In accordance with Federal Oil Pollution Prevention Regulations published in the December 11, 1973, Federal Register (38 FR 34163.40 CFR 112), attached is our response to the questions listed in Section 112.4 (a). Such a report is required when two reportable spill incidents occur within a twelve month period after January 10, 1975.

Additional information required by Section 112.4 (a) which is not contained in the attached SPCC Plan is provided below:

- o Initial facility operation date - 1950
- o Maximum oil storage capacity - 16,522 barrels
- o Average daily through-put - 743 barrels

Should additional information be required, please advise Mr. John Van Dyke, Stationary Source Environmental Control Office, Ford Motor Company at (313) 322-5548.

Very truly yours,

FORD MOTOR COMPANY
